The Circuit Court for this county has been in session since the 1st of this month, and will continue until the 15th. The chancery docket is a large one, and Judge Irving has vigorously worked to clear it up. There was one criminal case—that of a negro named Calloway, tried for indecent assault, and the jury stood ten for hanging and two for the penitentiary. There were very few new cases for litigation, but principally old bones of contention which have furnished pickings to the court officers for over fifteen years.

At the burial of Lieutenant Alvis W. Allen, of Oxford, N. C., which occurred near here, at his brother's residence, last week, the Granville Grays, of which company he was first lieutenant, came over to Virginia armed and uni-formed and interred their comrade with military honors.

Ins. Wimbish, upon whom the operation of laparotomy was performed thirty-two days ago, presents unfavora ble symptoms this morning, and there are apprehensions that pyremia may

supervene.

An aerolite of surpassing brilliancy was seen here on Saturday night last at about 10 o'clock. Its course through the beavens was from south to north, and the light from it for about a minute was so bright as to make visible the smallest objects, and the explosion which followed rattled the window-sash in the houses. Some ten or fifteen miles south of here some people apprehended that another earthquake had occurred.

An elegant entertainment was given here at the Mineral Hotel last night to the young ladies by the young gentle-men of the town. The dancing continued until a late hour, and I noticed among the young ladies present— Miss Bessie Imboden, of Richmond,

Many of our citizens went over to Lunenburg Courthouse yesterday to hear a discussion between the Hons. George D. and J. S. Wise. They both spoke, but at different stands, to large crowds, and popular feeling and de-monstrations were largely in favor of the Democratic champion. Hon-George D. Wise has been invited and is expected to address the people of this county at our next court, the 17th of this month. Major Mann Page will also be here at that time.

AN Old Woman Shot Down in Heroway.

A Middletown (N. Y.) special says: Philip Ulrich, a farmer living near the village of Jeffersonville, Sullivan county, midway between the Erie and Ontario and Western railroads, made the shocking discovery about noon yesterday that his aged and widowed mother had been nurdered at her own hearthstone. The house was thoroughly ransacked and plundered of every valuable article.

The crime occurred in the peaceful rural neighborhood known as Swiss Hill, in the midst of a little settlement of honest, industrious, thrifty, and well-to-do Swiss farmers, who have been settlers there about thirty years.

ARREST OF A SUSPECTED MAN. Immediate search was made for traces of the murderer. Suspicion at once pointed to a young Englishman named Abel Allen, a new comer in the neighborhood. He was arrested and charged with the murder, but denies his guilt. It is known that he was out hunting birds Saturday afternoon, and he was seen near the murdered woman's house, gun in hand, late in the evening.
Public opinion is so confident of his

That Puzzle.

To the Editor of the Dispatch: As your correspondent does not limit the number of digits used, I give as one answer

438

to his puzzle in your paper of the 9th instant. RICHMOND, VA., October 10, 1887.

To the Editor of the Dispatch: Allow me to submit this solution of C.'s puzzle in yesterday's Dispatch:

2 9 4: 7 | 5 | 3: :6 | 1 | 8:

This is an arrangement of the nine significant figures in three columns of three figures each, so that the sum of each vertical, horizontal, or diagonal olumn will be fifteen, all the figures being used, and none used but once. To construct, place 5 in the centre square and 2 and 4 in any two corner squares not diagonally opposite; thus:

***	a not uniquan;						
2	4	4			1	14:	
	15		or	200	1	1	
37	ī	1			1	2	

the puzzle, for you have only to com plete first the diagonal columns by writing the figures required to make their respective sums 15, and then complete the vertical and horizontal ones in the same way.

You will notice that the even numbers are regularly arranged in the corner squares-thus:

> 2 | 4: 1.1 6 | 8

while the odd ones are all in the middle of their respective columns, whether vertical, horizontal, or diagonal. Respectfully,
